Patent Mill Wheels.

Tinbey's Patent

Two Vent Cast Iron Water Wheels

—FOR—

SAW MILLS,

Invented by T. R. Tinbey of Cato N. Y.

THE subscriber would invite the attention of the Public to the above named WHEELS, which have been fully tested in *Competition* with all other regular

SAW MILL WHEELS

in use at the present time, and they can confidently recommend them as to their value, head and quantity of water applied as possessing and combining *more Strength and Set of gudgeons* and giving a more uniform and *Steady Motion* in and out of the cut (and therefore not liable to break cranks) and will also run *longer* and *Saw more Lumber* under a low head than any other Wheel in use.

To the advantage which this Wheel has over others is that it is constructed with but two Vents for the discharge of water which makes the apertures larger and allows the drift stuff to escape without filling up the Wheel.

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere

We would also call the attention of Mill Owners and Operators to

Valentine's Patent

Reversing Centrifugal Water Wheel,

—AND—

"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments. Mills and Factories of different sizes so as to give any required power required and from the application of the Wheel have acquired by the success of the [illegible] them already built and [illegible] recommending their use as combining more advantages than any other Wheel [illegible] so extensively used

We [illegible] this Wheel we have [illegible] Extracts from the report of [illegible] Engineer—Lowell, Mass. which we think will serve to the most Scientific and practical Engineers in this country.

"The wheel is formed with curved floats the number [illegible] the size and velocity of the Wheel [illegible] so far around the Wheel that which the water receives at the point of pressure [illegible] that it falls very nearly [illegible] to the Wheel. The Wheel is inclosed in a cylindrical case [illegible] in which the water stands [illegible] head, the column being sustained [illegible] the Wheel so [illegible] upward pressure upon the Wheel, which [illegible] stands [illegible] the column of water [illegible] to counteract all the friction on the step and bearing of the Wheel is avoided, and so much of the power saved, which in the ordinary mode of operation is wholly lost.

"This Wheel is adapted to low as well as high heads of water and will run as well in back water as in [illegible] the back water. But a Wheel with the jets at the [illegible] for a high head will not answer for [illegible] as the head increases, the width of the jets [illegible] proportionably decreased so that the water may not issue to waste, and bring [illegible] best effect to the Wheel.

"I put the power the trials show conclusively that this Wheel is superior to the best constructed breast Wheels and that it has the advantage of working well under the [illegible] is liable to meet [illegible] as the wheel [illegible] are needed, [illegible] the [illegible] much more durable, [illegible] very little [illegible] in a mill or shop—simplicity of [illegible] for ability of parts convenience [illegible] of power are as good [illegible] recommendation for this Wheel

New Hotel at Oldtown!

JAMES STINSON

Announces to his friends and to the public, that he has fitted his large, commodious and centrally situated dwelling for a Public Hotel, and has opened the same to the public with the determination that every attention shall be paid to the accommodation of the travelling community.

He gives full assurance that he will keep a TEMPERANCE HOUSE, and that nothing shall be wanting on his part to entitle him to the approbation of all who may favor him with their patronage. The House will be kept on a liberal scale, and the most assiduous attention shall be given to make the house a desirable and comfortable home for travellers as well as more permanent boarders.

It is believed that a Hotel of this description is greatly needed in Oldtown, and the public are invited to give it their support.

TO THE AFFLICTED.

DR DOUGLASS respectfully informs the citizens of Boston that he may be consulted as to all diseases incident to the human frame, at his office,

No. 55 Union Street.

Dr D. has been in extensive practice in all parts of the United States, and has now in his possession the best of evidence to show that he is a regular M D. He has been upwards of 40 years in practice. The diseases of females will receive the Dr's particular attention. He will tell all the diseases from an examination of the eye; this is an advantage that Dr D has above all other practitioners, and which will necessarily do away the necessity of a long and unpleasant explanation on the part of the patient, of the disease with which they are afflicted. The age and length of time the patient has been suffering, is all the Dr will require to give them a most thorough knowledge of their complaint and whether or not a cure can be effected.

Dr D has been very successful in the treatment of Colds, Coughs, Consumptions and Liver Complaints, all Pulmonary diseases, Scrofula, Rheumatism, Fits, Dyspepsy all diseases of the Eye and Ear, diseases of the Blood, Palpitation of the Heart, Gout, Salt Rheum, Cancers, cutaneous diseases and all affections of the kidneys and bladder; Tic doloreux, Hernia, Abdominal Weakness, Tooth-ache, Intemperance, Stammering. Dr. D warrants a cure of any of the above diseases, if applied to in season.

He would also respectfully inform the Ladies that he will attend to their diseases and complaints from 8 to 12 A M and from 2 to 9 P M. A full and general assortment of medicines are kept constantly on hand. Printed directions accompany each bottle or package.

All communications (post paid), with a fee enclosed, will be strictly attended to.

NEVER DESPAIR OF LIFE!

KELLEY & CO'S

HIGHLY CONCENTRATED

SARSAPARILLA

Cures the Worst Diseases that ever preyed on the Human System, and saves Thousands of Lives

Annually!!

10,000 CASES

Of SCROFULA cured by it this year, and 5,000 Cases DYSPEPSIA and HUMORS, of which *proof can be furnished.* This is the only medicine known to cure these diseases.

THIS Sarsaparilla will bear TWO QUARTS OF WATER to a Bottle and then be far superior to any in use. It is put into the Bottle in FULL STRENGTH and power, without reducing it, and this is done for the special benefit of those who use it, as it is objected to all other Sarsaparillas that they are Weak, Clumsy, Adulterated, Sickish, and are wholly incapable of reaching the seat and cause of the disease. But this Sarsaparilla comes warranted to be

Six Times Stronger

than any other, and Six Times Better, Safer, Surer, and Cheaper than all others. *THIS* Sarsaparilla has bestowed on it some of the best MEDICAL Talents and Skill in the world, and CURES all the Sickness KILLS all the Pain, and REMOVES all the suffering that it is in the power of Human means to do. It Cures

Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Canker, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum, and every Disease which arises from Impure Blood!

CONSUMPTION CURED WITH

KELLEY & CO'S SARSAPARILLA!

A PHYSICIAN, who is truly the most distinguished of any in a large City for professional skill, CERTIFIES, astonishing as it may seem, that he actually CURED a case of **Consumption** with Kelley & Co's Sarsaparilla, and says "that there is no medicine in which he has so much confidence for Diseases of the Lungs." Some will marvel at this REMARKABLE Cure, but hundreds are knowing to the fact. This RE-TIMABLE Sarsaparilla is also doing wonders in foreign cities. And save

SIR BENJAMIN BRODIE,

Surgeon to the royal Family of England "that there is no other medicine which is CAPABLE of doing so MUCH GOOD, and yet so INCAPABLE of doing injury." What distinguished compliments are these! Never was there a medicine honored with STRONGER RECOMMENDATIONS. It CURES when every thing else fails, the

Severest Scrofula and Humors,

where the flesh falls off the bones—the bones are diseased and the DART OF DEATH seems ready to strike the sufferer. And the reason for this is, that it makes the **BLOOD** perfectly Pure, Rich, Healthy, Quick, Free, Nutritious. It CURES all those ALARMING cases of DYSPEPSIA and JAUNDICE, where the Liver is Swollen and Painful, Strength wasting, Appetite gone, Pulse weak, or Feverish, Skin yellow, Nerves deranged. Increases Health, Strength, and Vigor, to every disordered function of the System—causing them to move on just as Nature requires. And for its WONDERFUL Power over Disease in every form and part which no other Medicine possesses, the public justly style it the

Master Remedy of the Age!

The great secret of all its triumphant success over all other Sarsaparillas, is, that it does not tamper with the patient, or prolong his sufferings. But it first attacks the disease and stops it, then removes it, then brings up the flesh and strength on a perfectly pure Blood, so that the cure is always thorough and permanent. Others only scatter, or backen the disease but this EXTIRPATES it wholly from the system—this saves the patient's life while others endanger it. The whole Body is made so healthy by the use of this GIANT MEDICINE, the System so vigorous—Mind so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant, that Medical Colleges, Professors, and Physicians always prefer it, for the sake of its Superiority. Try it, all you who are seeking the PRICELESS BLESSINGS OF HEALTH!

Ladies, Married and Unmarried!

It is for you, especially, that this Sarsaparilla is made, as the "HEALING ART" has been tasked to the utmost to have it exactly suited to FEMALE COMPLAINTS. These Complaints have never been cured for as they ought; hence it is that all the medicines which are used with the hope of Cure, so invariably and entirely fail. But this Sarsaparilla has the **SPECIAL** ability, to cure every Disease, Affliction, or Pain, which comes under this head. Irregulates the secretions—corrects the irregularities of the System—restores strength to every part—beautifies the complexion—imparts a flow of spirits—cures palpitation of the Heart—removes Blotches, Pimples, Freckles.

NOTICE.

THE AMERICAN AIR-TIGHT COOKING STOVE, Pierce's Patent, manufactured by Johnson & Cox Troy, N Y.

The aforesaid Patent having been fully established by the judgment of the Circuit Court of the United States at Boston, we hereby give notice that GARDNER CHILSON, of Boston, has the exclusive sale of said Stove for Massachusetts, Rhode Island, Maine and New Hampshire. All infringements on said Patent will be promptly prosecuted.

JOHNSON & COX

Troy, N Y, July 1st, 1848

The American Air-Tight Cooking Stove.

If this is not the best Stove in use, why so many attempts to infringe upon it? This suit was brought to sustain the Patent and to stop the infringements, and after a most thorough legal investigation, these rights were promptly decided, fully sustaining this Patent.

More than Ten Thousand of these Stoves are now in use. The testimony of this multitude, the past year, establishes the fact beyond a doubt that there are more good and useful qualities combined in this Stove than ever was, or probably ever will be found in any other Stove. The fire-brick over top is of great value in equalizing the heat around the oven absorbing the steam, causing the bread, &c to rise and bake light and quick—and giving bread, puddings &c that flavor of the house brick oven. The kettles, for roasting in front, is complete. The summer arrangement for broiling, frying, boiling, heating of irons &c is admirable—The great economy of fuel, substantial construction and general good quality of this Stove is the cause of its universal admiration.

NOTICE.

WARMING AND VENTILATION, on correct and philosophical principles, as recently adopted by a unanimous vote of the School Committee of the city of Boston, as will be seen by their printed reports of 1847 and 48, which, after being thoroughly tested as public and private buildings, has been generally adopted, in concurrence with the views of several other scientific committees, and all other gentlemen whose experience has enabled them to become conversant with this method of warming and ventilating dwellings, churches, school houses, hospitals, factories, stores, &c., with an abundant supply of fresh, healthful warm air. The fuel not being allowed to be burnt in iron under any circumstances, consequently the oxygen in the air is not destroyed by coming in contact with red hot iron furnace pots or plates.

It has abundantly proved itself to be a complete and perfect system.

The subscriber having had the practical knowledge and experience in the construction and execution of these improvements, from their commencement.

Being the inventor of most of them, enables him to be correct in theory and practice.

He will give his personal attention to the erection of his Brick Hot Air Ventilating Furnace,—also his Portable Ventilating Furnace, Dr Clark's Boston School Stove, also, arranging the Ventilating flues and Ventilators in all parts of the United States—by addressing him at the Stove, Range and Hot Air Ventilating Furnace Establishment, Nos 51 and 53 Blackstone street, where orders will be promptly executed. The Great Remedy for Gonorrhœa

GLEET, Stricture, and all analagous complaints, is Dr. DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known, having practiced in the principal cities in the Union, during the last 40 years. His only reason for introducing the Pastile, in this public manner, is the consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks.

Dr. D. most solemnly affirms that during his practice of forty years, this Paste has never, in one single instance failed of effecting a cure in a few days, without any change of diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years but after taking the Paste for a few days the angry symptoms disappeared, and the patients were discharged, entirely cured.

If the unfortunate, instead of drugging the muscles with quack nostrums, would purchase only one box of the Arabian Paste, we should not see so many emaciated bodies and sallow countenances as we do at the present time.

☞In case this Paste should fail to effect a cure in the shortest possible time, ten times the price paid for it will be given the purchasers on returning the empty boxes.

For sale only by the original inventor and sole proprietor, Dr. PETER G. DOUGLASS at his Office, No. 55 Union street, Boston, at $5 per box where he can be confidently consulted on every disease incident to the human frame, and the patient rely upon the most beneficial course of treatment that can possibly be adopted.

WHENEVER this remedy is at hand, no disease of the lungs or throat need be feared, for it gives immediate relief, and if properly used in effects a permanent cure. The Formula by which it is prepared has been laid before the medical Colleges, and a large part of the medical Professions of this country, and they have agreed in according it unlimited praise as a most skilful Preparation, and the most certain remedy known for diseases of the Lungs and Throat.

DR. BARTLETT, OF CONCORD, MASS.,

uses it constantly in his extensive practice, and particularly recommends it in cases of *Hooping Cough*, he having found it more certain to cure that troublesome disease than any other medicine.

FARMING AND WOOD LAND,

FOR SALE.

ONE HUNDRED and forty or fifty acres of good LAND, about two miles East of Broadway, in Bangor, on the new County Road to Orono, and in sight of Coombs' Mills. The great and increasing demand for wood in this city, makes it a greater object for farming as the hauling of the wood prepares the land for cultivation.

The land will be sold in quantities to suit purchasers. A few years will enable those who secure even small lots of land so near, how to appreciate the advantages.

Terms may be known by calling at this office.

Is Your Name on the Ward List!

Let every Taylor voter see to it that his name is on the Ward list in order that the navy have no trouble on Tuesday next See that the names of your neighbors are on and on right Have an eye to electricity our Ward but, that every one who is entitled to vote may have an opportunity, and that the ballot box may be kept pure

Destructive Fire.

We had barely time to mention in our paper yesterday morning that the Mills at North Bangor were consumed by fire the night previous We learn that the destruction was complete and the whole Mill row of those blocks, are burnt up clean It is but a short time, only some 3 years and a half we think, since these Mills were rebuilt at a cost of *one EIGHTY THOUSAND DOLLARS* They were among the best Mills on the river and were furnished with all the late improvements and have been running out an immense quantity of lumber—They were run by and night and the fire took about twelve o'clock while the men were at their night meal

It is not known how the fire originated Every precaution had been taken to guard against a conflagration—no fire was allowed except the lamps—no smoking permitted—though sometimes stealthily indulged in by the workmen—and the men had been from their work but a short time, when the Mills were in flames

These Mills were owned, one half by Gen Veazie, three eighths by John Fiske Esq., and one eighth by Hayes Reed Esq all of this city Gen Veazie had no insurance, Messrs Fiske and Reed had an insurance of twenty thousand dollars, $10 000 at the Hartford Office and $10 000 at the Ætna Office both of Hartford, Conn

The destruction of these Mills is not only a great loss to the owners, but a loss to our city generally, and will be severely felt by the people at North Bangor, several of whom own real estate in the village there which will be greatly reduced in value and the present occupants of the village be compelled to find new employment, unless the Mills shall be immediately rebuilt

☞ Mr Dempster give one of his excellent concerts at Market Hall on the last evening, which was listened to with pleasure He will give another concert, at the same place on Friday (to-morrow) evening, where, of course, he will have a brilliant company

☞ The Taylor meeting at the City Hall, on the last evening was indeed a rouser The address by Charles W Upham, of Salem, Mass was a highly finished production and an eloquent appeal to the people of our city, to give their votes to the hero and patriot Zachary Taylor We wish it could have been listened to by every voter in Maine

☞ The Boston Journal well says, that if we would maintain and improve our great moral and physical advantages as a people, let our Public Schools, every where—in our cities, towns, villages and hamlets—be encouraged, supported and made to flourish, at any and every sacrifice Let the children of all the people be furnished with the means of drinking abundantly from this great fountain of instruction

☞ The Postmaster General has issued instructions that newspapers brought or sent as freight, on board the English steamers, need not go into the post offices or be mited with postage, and exchange papers may be delivered, as formerly, to the editors, until the department learns that the British government impose a tax upon newspapers taken in our packets

☞ The Whig Torch Light Procession and illumination in Boston on Monday evening, was one of the most brilliant affairs of the kind ever witnessed in this country It gave satisfaction to all, and even their opponents declared that it was highly worth witnessing and was executed in good taste

The Albany Knickerbocker says that the best cure for dyspepsia is to collect bills for a newspaper If that don't give you an appetite, you might as well sell your stomach for tripe and have done with it

The Commercial Association of Manchester are taking active steps to rid themselves of the necessity of buying Cotton from the United States

A SPEECH FROM GENERAL TAYLOR.

The papers received yesterday, brought an account of a Barbacue, given at East Feliciana, La, to the returned volunteers, on the 19th of Oct

There were twenty five hundred persons present on the occasion, drawn together chiefly by the expectation of seeing and hearing Gen Taylor, who, the Journal of Commerce says, consented to be present, on the express condition that the occasion should not be taken advantage of to serve party purposes

In reply to a complimentary speech of J H Muse, who welcomed their distinguished guest, General Taylor is reported to have spoken as follows —

Mr. Speaker, and Ladies and Gentlemen —It is with a feeling of deep embarrassment that I attempt to reply to the eloquent address just delivered in which I feel my humble services have been too vividly portrayed and too highly estimated

During the long period I have been in the service of my country I have endeavored to keep in view, as the constant object of my exertions, the honor, the integrity and the welfare of my country, and if I have been placed in situations in which I was able to promote those objects it is attributable rather to the zealous and and energetic co-operation of the gallant men, both of the regular and volunteer service whom it has been my good fortune to command than to any superior skill or ability on my part To them more than to myself, belongs the glory of any results which may have been achieved under my command

But I cannot avoid the opportunity while referring to the achievements of our arms, of expressing my deep conviction of the evils of war of which here as elsewhere, my mind receives daily and mournful proof Throughout my service I assure you the proudest moments of victory have been darkened and rendered sorrowful by reflection of the painful occurrences which it produces of the wives made widows of parents made childless, of friends bereft of those bound to them by the dearest ties

For the awful results of war are not confined to the bloody scenes of the battle field, but disease, slow consuming disease, more than any of the instruments of war scatters death among those engaged in the trying fatigues and exposures of military duty Of those who died in the active service in Mexico the proportion of those cut down by disease to those who fell on the battle field is about five to one

For these reasons as a constant witness of all the stern and painful realities of war, I assure you that there is no one who rejoices more in the conclusion of the war with Mexico—now happily terminated—than I do It was not from any apprehension of the dangers or any dread of the fatigues and sufferings to which I might be exposed that I so warmly desired the conclusion of this war—but it was because I looked upon war as a great evil as a last resort, which when it can be honorably concluded is in the first duty of a nation—especially a Republic—to terminate

I believed it not incompatible with the honor and interests of both Republics to terminate this war And now that peace has once more smiled upon our happy land I assure you it is a proud and delightful feeling to meet all the hands of our fellow citizens the kind and friendly reception in which I have been extended to me on this, as well as on many other occasions which I have had the pleasure of enjoying the hospitality of my fellow citizens I remain

These demonstrations satisfy me that it is a calumny to call Republics ungrateful Every where have the soldiers of the Republic received the meed of popular applause and enjoyed the kindness of their fellow citizens, but in no State have they been more kindly treated, than in our own State of Louisiana to which my observation has been confined since my return from the war, not having been out of the State except on a flying visit to my plantation in Mississippi

The people of this State will compare with any in the world in patriotism and public spirit Their conduct in the late Mexican war, in rushing to the aid of the little army which I had the honor to command on the R Grande, brings to mind the patriotism of our fathers, when, after the battle of Lexington, they rushed to their country's standard, from the plough, the workshop, the desk, and even the pulpit, all eager to share in the glory and peril of defending the nation's honor

Such was the conduct of the large and gallant corps of volunteers who rushed to our rescue on the Rio Grande And I assure you, that it was to me the most painful occurrence of the war, that I was compelled to part with that gallant body of volunteers, but it was inevitable as the enemy had retired beyond our reach, into the interior of Mexico, and we had not sufficient means of transportation to follow them

Not desiring to keep them in inglorious activity, subject to the diseases of camp duty, I preferred that they should rejoin the families and homes from which they had torn themselves under the influence of high and patriotic motives

That occasion furnished an additional proof of the fact which I had already been manifest to my mind, that we are a nation of soldiery possessing more than any other people in the world, the virtues and resources of the great military nation

And indeed there has been more reason to fear that our military spirit would carry us too far, and impel us to the invasion of our neighbors territory, than that it would fall short of the defence of our own territory and honor

I have ever cherished the sentiment of the father of his country, who cautioned us against leaving our own soil and territory for a foreign country—who inculcated as a *cardinal principle* of our republican institutions that we should eschew all foreign alliances and connections and confine ourselves to the improvement of our own proper soil and the advancement of peace and happiness within our own proper Sphere

But should war ever come upon us, I have seen enough of the zeal and eagerness of the youth of our country to believe in their ability and ardor to encounter any dangers and sacrifices to defend the honor and avenge the wrongs of the nation

This war has served to manifest the existence of a deep, unconquerable heroism, in all classes of our people It has not been by any means confined to the sterner sex, for nowhere has it shown brighter than in the conduct and sentiments of the softer sex of our country, so many of whom have honored us with their presence on this occasion

During my public service, I have become familiar with deeds which place the women of our country on a level with the Spartan and Roman mothers, of whose heroism history records so many interesting examples I have known mothers to send their only sons to the war, telling them to return with honor or not at all I have known sisters to part with only brothers, with words full of pride and hope of their return with bright laurels I have known wives to tear themselves from the arms of devoted husbands, and to forget all of their own cares and affections in a generous and patriotic pride and devotion to their country and their husband's honor

Where such feelings prevail among those who are to be the mothers of the Republic, from whom the ideas and virtues upon which the future weal of our country will depend are to flow, there can be no reason to fear that our people will ever be slow or weak, in maintaining the rights of the republic, and sustaining the national honor

With these desultory remarks, I beg ladies and gentlemen to offer you my warmest thanks for this splendid and gratifying reception, extended to me by the patriotic citizens of East and West Feliciana, of East and West Baton Rouge, and other parts of this beautiful and interesting country

Payment of the Mexican Indemnity.

The New York Herald says that the Secretary of the Treasury has given orders for the payment of the Mexican indemnity Eight hundred thousand dollars will be paid out in that city, four hundred thousand in Boston, and three hundred thousand in Philadelphia, making an aggregate of fifteen hundred thousand dollars

The Outbreak at Tampico.

The Arco Iris (Vera Cruz newspaper) of the 11th inst, thus mentions the late movements in Tampico

By express we learn that a pronunciamento has been made proclaiming the independence and annexation of that State to the United States We have not been able to learn all the details but the main fact ascertain

In consequence of this, orders have been given here to disembark three hundred muskets and other munitions of war, which by order of the government, had been sent aboard a vessel now in the port, and which were to be sent to Tampico

It is believed that the same thing which occurred in Tampico, happened at Matamoras at the same time

A Jalapa newspaper takes the same view of the affair, and regards it as covering designs of annexation to the United States.

The Bay State to Maine.

BY A SALEM WITCH

The old Bay State to daughter Maine,
Sends down a friendly greeting
And hopes by aid of Kent and Paine,
She'll join us in the beating!

Then clear away for Election day,
Be zealous firm, and steady
And by united hearts and hands
Secure Old Rough and Ready

Van Buren is a shocking pest—
But we'll give our opinion,
That he and Polk had rather best
Try to regain dominion!

And as for Lewis Cass,
With such a mighty swallow—
Unrate'd by all Mexico—
We don't know what might follow!

So here's no health for Lewis Cass,
Nor yet for Mat a blessing—
They neither shall obtain our pass,
For both deserve a dressing!

So daughter dear, act well your part,
And Victory we'll gain—

"CAN'T AFFORD IT."

BY T S ARTHUR

"Can't afford it" Too many months to feed—too many backs to cover It's a luxury should very much like to indulge in—no man louder of reading than I am—but can't afford it, sir'

'It's only three dollars a year Less than six cents a week

I know But three dollars a year will buy half a barrel of flour and give my family bread for a month It is no use to talk my friend I know exactly my own ability and know I can't afford to take the magazine

And thus Mr Rivers closed the matter with a persevering canvasser, who was industriously trying to add to the subscription list of a certain highly popular magazine

'I think you might have taken it papa, said Mary Rivers, greatly disappointed 'I never see a magazine or newspaper unless I borrow from Jane Tompkins, and I know her father grumbles at her lending them

'I might do a great many things should if I was made of money, which I am very sorry to say is not the case, returned Mr Rivers 'If I could afford it, I would take all the magazines and newspapers in the country, but I can't so the ends the matter

And thus ending it, Mr Rivers turned away from his disappointed daughter, and left the house

Mary rivers was extremely fond of reading, and had, dozens of times, begged her father to take 'Godey,' or some of the other magazines or paper but his uniform answer was, 'I can't afford it, so she was forced to borrow at Jane Tompkins, whose father subscribed for half a dozen magazines and newspapers, and thought the money well laid out To have to borrow she thought bad enough, but the worst of the matter was, no sooner did she bring a magazine or newspaper, to the house, than it was caught up by one hungry member after another, always including her father, and its contents devoured by each and this often before she could get a chance to read half a dozen pages or columns The newspapers or magazine, whichever it might be, never passed through the entire family of Mr Rivers without being considerably the worse for wear The papers were soiled, rumpled, the folds worn through or torn, while the magazines were sent home often sadly disfigured

All this to Mary was very mortifying, and often prevented her from asking to borrow the new numbers of the magazines, although to use her own words, sometimes, she was dying to see them

It was a warm day in July, and Mr Rivers, who had, about six months before, joined the temperance society, felt very dry as he walked along the street Before signing the pledge, he would have quenched a similar state of thirst with an iced punch or a mint julep Now he merely stepped into a druggist, and called for a glass of mineral water, for which he paid his 6½, thinking, if he thought at all of the expense, it was the merest trifle in the world An hour afterwards he indulged in the luxury of a couple of oranges, at four cents each, which tempted him as he passed a fruit stall

'Rivers, said a neighbor, stepping into his store after dinner, 'it's terrible hot, and as there is nothing doing, I've made up my mind to take a little excursion down the river in the steamboat that leaves at four o'clock Come, go along, won't you? We can be home by tea time'

'I don't care if I do,' replied Rivers, 'I want a little recreation, badly

A thought of expense, or whether he could afford it, never crossed his mind

At four he was on board the steamboat, after having spent a shilling for cigars, which were shared with his neighbor.

'Come, let's have a glass of lemonade, he said, shortly after they were on board the steamboat, and the two men went to the bar, and each drank a cool glass of lemonade, for which Rivers rattled Shortly after the fare was called for It was only twenty five cents

'Cheap enough,' remarked Rivers

'Yes, cheap as dirt No wonder the boat is crowded.'

Twelve and half cents more were spent by Rivers for an ice cream before he returned from the excursion He could afford this very well

On arriving in the city, between seven and eight in the evening, it occurred to him, that as long as he had been enjoying himself so well, he ought to take something home for his family that was a little nice While wondering what this should be, he passed a fruit stall, in the window of which was a large display of oranges

'I'll take a dozen oranges home to Mary Gill do,' he said

And as he went in and got a dozen oranges, for which he paid thirty seven and a half cents, and bought besides, a 'fip's worth of tobacco

The extra spendings of Mr Rivers, who could not afford to take a magazine, were, for that day, just one dollar and twenty cents, at the rate of three hundred and sixty dollars a year! And yet Mr Rivers thought himself a very economical man, and took merit to himself for saving on newspapers and magazines

On the next day, Mr Rivers felt as if he needed a little exercise—he was so closely confined in his store—and, as it was dull, he could just as easily be spared as not So he hired a horse and saikey for a dollar and a half, and took a pleasant ride to himself Previously to his riding out, he spent a shilling in mineral water—During the ride he paid to gatekeepers, stable boys at taverns where he stopped for lemonade, and for what he drank and smoked, just thirty eight cents Ten cents in cakes for the children laid out to satisfy the rather unpleasant sensation he felt at the idea of having indulged himself in a ride while his family remained at home completed this day's extra expense of the man who could not afford to take a periodical, the whole amount was just two dollars

On the day succeeding to this, fifty cents were spent in little self indulgences on the next twenty two cents, and on the day after nearly a dollar And so it went on, day after day and week after week, while Mary continued to borrow from Jane Tompkins her magazines newspapers and books

One day, shortly after the new magazines for the month had been announced Mary called as usual upon her friend Jane On the table lay 'Godey and several other magazines

'How much I do envy you, she said 'What would I not give if my father would take the magazines for me as yours does for you, but he always says he can't afford it

Then Mary turned over magazine after magazine, examining and admiring the beautiful engravings When she was going away, she said —'Are you done with the Lady's Book yet'

Jane looked slightly confused as she replied—'I've read it Mary, but papa hasn't done with it yet

No matter—'Graham or the 'National' will do

'I'm sorry, Mary and the color rose to Jane's face, 'but I can't let you have either of them The fact is, Mary, to tell you the plain truth, papa has objected for a good while to my lending my periodicals and literary newspapers, and now positively forbids my doing so But you can come and see me Mary, and read them here I shall be glad to have you But I need not say that—you know I will I wish papa wasn't so particular, but he is a little incurious about some things

Mary felt hurt, not with Jane, but at the fact She went home feeling badly

'Your friend Miss Rivers did not get her usual supply of reading, said Mr Tompkins to his daughter shortly after Mary had left the house

'No, and I was sorry for her, replied Jane—'She seemed hurt and mortified when I told her that I could not lend them I am sure, papa, it wouldn't have hurt us at all and would have been such a gratification to her

'Let her father subscribe for them, as I do—He is just as able

'But he thinks he can't afford it, and now—Thinks he can't afford it, indeed' said Mr Tompkins 'A man who spends, two or three hundred dollars a year in the indulgences of one kind or another, talking about not being able to afford magazines and newspapers for his family Why, it costs him more for tobacco and cigars than it does me for periodicals'

'Still papa, it is hard for Mary to be deprived of them It isn't her fault She says she often begs her father to take them for her, but that his only reply is he can't afford it

'If she were the only one concerned, Jane, she might have them with pleasure, replied Mr Tompkins 'But you see she isn't It is plain from the condition in which the magazines come home, that they have gone through the hands of the whole family That Mr Rivers indulges himself at our expense I am very well satisfied, for I have seen my 'Godey' at his store more than once'

'Yes, that is he words of it'

'Besides, Jane, I am not perfectly clear in my own mind, that it is no not true to the publishers to encourage anything of this kind They go to great expense and labor in getting up their works, and certainly give the money's worth to all who subscribe But if every subscriber lends to his neighbors who are perfectly able to subscribe themselves, and who would do so if they could not borrow, the publishers cannot be sustained, or will receive, at best, but a inadequate return For my part there is scarcely anything I would so loathe as to borrow a newspaper or periodical I never have been guilty of that meanness yet, and, if I keep my present mind never will'

'Mary Rivers, as she had been seen, went home, feeling very badly The more she thought about what occurred, the more she felt mortified and really ashamed of herself for having thus passed upon Jane Tompkins for her periodicals and newspapers, to such an extent as to cause her father to interfere and forbid her lending them any more For this fact in the case she was not slow to infer

'Mary, said Mr Rivers, as he sat that evening listless for the want of something to read or do, am I none of the magazines out for this month? Have you got a 'Post or a 'Courier from your friend Miss Tompkins?

'No, papa, replied Mary

'I thought you went there to day'

'So I did, but Jane says her father has forbidden her to lend the papers and magazines any more

'He has! ejaculated Mr Rivers, with surprise and something of indignation 'Why was that?

'I don't know, but Jane said she could not let me have any more'

'It's very selfish' said Mr Rivers, 'very selfish' What harm could your reading the magazines do him I wonder? But that's just like some people' They cannot bear to see others enjoy themselves, and will prevent it if in their power'

Mr Rivers felt rather uncomfortable about that refusal on the part of Mr Tompkins It seemed to him to be aimed at his family He also felt uncomfortable at the thought of losing his regular weekly and monthly enjoyment of reading the newspapers and magazines 'free, gratis, for nothing In fact, the standing of Mr Tompkins upon his reserved rights, had an unhappy effect upon the whole Rivers family, from the father down to little Tommy, who read the anecdotes, and a story now and then, with as high a relish as any of the rest

Things remained in this posture for two or three weeks, when Mr Rivers became so hungry for the mental aliment, withheld by Mr Tompkins that he strained a point, even though he felt that he couldn't afford it, and went and subscribed for the Lady's Book He brought home a couple of numbers with him, and t esing them into Mary a lap 'There's the Lady's Book for you, Mary, and no thanks to Mr Tompkins'

Mary's eyes and face brightened as she caught up the "Book"

'Have you subscribed for it, papa! she asked eagerly

'Yes, dear You can read your own magazines now

'Oh, I am so glad' exclaimed Mary, the tears starting into her eyes

Even though he could ill afford it, Mr Rivers felt happy to think that he had made Mary so happy On the next day he thought frequently of the delighted face of his daughter when he told her that he had subscribed for the magazine. —about night he determined to give her another agreeable surprise ere the week was out It was Thursday. Of the next evening when he came h, Mary sprang towards him and holding up a newspaper, said, while her whole countenance beamed with delight—'A man left Neal's Gazette here to-day. Did we subscribe for it papa? Yes I know you do, your face tells me so"

Let those who say they cannot be cured by Buchan's Hungarian Balsam of Life, which the medical faculty are unable to discover or Dr Buchan would not be permitted for so many years to enjoy the magnificent monopoly of the treatment and cure of Consumption in Great Britain No such doctors a mass of this famous compound has ever to our knowledge been presented to the public

For full particulars of the genuine Hungarian Remedy may be had gratis of DAVID DUGHT and G W LADD, only agents in Bangor Sold also — 30

☞ Most Extraordinary Work. ☜

THE MARRIED WOMAN'S PRIVATE MEDICAL *By Dr A M Mauriceau Professor of Diseases of Women — South Britain He has upwards of 20 000 copies of this Work sold!*

Years of suffering, of physical and mental anguish to many a wife, of broken hearts and pecuniary difficulties to the husband might have been spared thousands now poor would have enjoyed comfort etc, thousands now broken in health would have enjoyed it, had it been known to them as it is given by a timely perusal of this work

It is intended especially for the married or those contemplating marriage as disclosing important secrets with which the knowledge is there particularly

Truly knowledge is power It is health happiness, influence

The revelations contained in its pages have proved a blessing to thousands, as the innumerable letters received by the author will attest

Here also, every female—the wife, the mother, the one either budding into womanhood, or the old in the decline of years with numerous complaints and important changes—may discover the causes the symptoms and the most efficient remedies, and most certain mode of cure in every complaint to which her sex is subject

Its Importance to the Married

may be gathered from the fact that Traveling Agents make from *Three to Five Dollars a day* from its sale—Hundreds of active, persevering minute are now commencing a little competence from the liberal discount allowed and the gratification for it Orders are required to be accompanied with payment

Copies will be sent by mail free of postage to the purchaser

Over twenty thousand copies have been sent by mail within three months with perfect safety, and certainty

On the receipt of One Dollar the Married Woman's Private Medical Companion will be sent (*postpaid free*) to any part of the United States All those in want of this work should send their orders immediately, as the present edition will soon be exhausted Address (post paid) (free of postage) in all cases DR A M MAURICEAU Box 1294, New York City Publishing Office 130 Liberty st, New York

EPILEPTIC FITS.

DR C. ROBBINS,

LATE of St Hilaire Province of Quebec Lower Canada has come to reside in the City of Bangor and has made arrangements to have those patients who wish boarded with him a few months in that vicinity while they will be undergoing the more immediate inspection and cure Here I am aware that the universal language of the medical writers is that *We are liable to pass by in silence any professional cure not attended to with a full report of the case and the result of the experiment* in these cases have fearfully affected the truthfulness of the above declaration

Dr Robbins on *panacea* for this disease as the causes are so various as some beyond the reach of medicine Yet he is confident that *seven cases out of ten* can be cured *effectually* in a few months after which time he will be ready to answer any calls that may be made to him at the Hatch House

It will not be considered strange that Dr R in reading the home field by all the exaggerated hopes and fears and foreboding that have clouded by such a fearful disease should introduce by what is the pathology of nervous diseases in general and epilepsy in particular and search the storehouse of medical knowledge with an impartial and well to which other theorizing is Not only a half sown case but the benefit of the practice and opinions of all the *Medical Sects* in the Northern and Middle States which was a rich source of instruction although they manifested HOPELESS upon him with contentment

HEAR YE! READ YE! REFLECT YE.

It is now over fifteen years that I have been afflicted with Epilepsy during the last years I have spent half of having the most severe and extreme weeks and half from two days to fifty in succession, which resulted in the entire loss of memory and extreme debility thus disqualifying me for doing any mental or bodily effort The art of the most eminent physicians of the Medical Faculty of New England was sought in vain In this declination I applied to Dr Charles Robbins of Meredith Village N H who had been hopelessly afflicted eleven years with Epilepsy and cured himself and who had treated successfully quite a number of cases in N H and Vermont pronounced hopeless by the Faculty At the expiration of one month after I put myself under Dr Robbins care, I had two slight fits since which I have had only I felt myself now five months that I have not had a fit and here to all appearance shall retain my former mental and physical strength and after six weeks have been enabled to do a man's work in a day MOSES MITCHELL

Dr. Townsend's

COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

This Extract is put up in Quart Bottles—it is two times cheaper pleasanter and warranted superior to any solid

It cures without nauseating, purging, sickening, or debilitating the Patient

The great beauty and superiority of this Sarsaparilla over all other medicine is while it eradicates diseases it invigorates the body It is one of the very best

SPRING AND SUMMER MEDICINES

ever known It not only purifies the whole system and strength to the purest *but creates new pure and rich blood* a power possessed by no other medicine And it is this the grand secret of its wonderful success — It has performed within the last two years more than 100,000 cures of severe cases of all sorts at least 15,000 were considered incurable It has saved the lives of more than 3,000 children during the two past seasons

10,000 *CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY*

Dr Townsend's Sarsaparilla invigorates the whole system permanently To those who have lost their muscular energy by the effects of medicine or indiscretion especially in youth, or the excessive indulgence of the passions and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline hasten it toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy This Sarsaparilla is far superior to any

INVIGORATING CORDIAL.

As it renews and invigorates the system gives activity to the limbs and strength to the muscular system in a most extraordinary degree

CONSUMPTION CURED

Cases and Strongthen Consumption can be cured Bronchitis Consumption, Liver Complaint, Colds, Catarrh Coughs Asthma Spitting of Blood Soreness in the Chest, Hectic Flush, Night Sweats Difficult or profuse expectoration, Pain in the Side, &c, have been and can be cured

SPITTING BLOOD

New York, April 28, 1847

DR TOWNSEND—I verily believe that your Sarsaparilla has been the means through Providence of saving my life I have for several years had a bad cough Became worse and worse At last I raised large quantities of blood, had night sweats and was greatly debilitated and reduced and did not expect to live — I have only used your Sarsaparilla a short time, and the cheerful change has been wrought in me I am now able to walk all over the city I cease no blood, and my cough has left me You can well imagine that I am thankful for these results

Your obedient servant,

WM RUSSELL, 65 Catharine-st

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cummings, Esq one of the assistants in the Lunatic Asylum, Blackwell's Island, sent a gentleman spoken of in the following letter

Blackwell's Island, Sept 14, 1847

Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism, considered one of the time I could not get up or walk I had the most distressing pains, and my limbs were terribly swollen I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good I am so much better—indeed, I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours respectfully,

JAMES CUMMINGS.

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Northern, August 13, 1847.

Dr Townsend—Dear Sir I have a little girl, seven years of age who has been several years afflicted with Fits we tried almost every thing for her, but without success at last although we could find no reason but on your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise She is fast becoming rugged and hearty, or which we feel grateful Yours, respectfully

JOHN BOTTLE, Jr.

FEMALE MEDICINE.

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness Piles Leucorrhœa or Whites, Suppressed or difficult Menstruation, Incontinence of Urine or involuntary discharge thereof and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident Nothing can be more surprising than its up-raising effects on the human frame Persons all weakness and lassitude from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervousness of the female frame which is the great cause of Barrenness — If will not be expected of us, in cases of so delicate a nature, to exhibit satisfactory certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us Thousands of cases where families have been without children, after using a few bottles of this inestimable medicine, have been blessed with fine, healthy offspring

TO MOTHERS AND MARRIED LADIES.

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, *The Cure of Life* should neglect to take it, as it is a certain preventative for any of the nefarious and horrible disorders to which females are subject at this time of life This period *may be dreaded for several years by many,* but the *Medicine* is equal to for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system, renews permanently the natural energies—by removing the impurities in the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease By using a few bottles of this inestimable, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attending upon child birth ever discovered It strengthens both the mother and child, prevents pain and disease, increases and enriches the food—those who have used it think it indispensable It is highly useful both before and after confinement as it prevents diseases attendant upon childbirth — a Costiveness, Cramps, Swelling of the Feet, Despondency, Heartburn, Vomiting Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal The great quality of this medicine is, it is a very safe, And the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin disfigured by the alkalines used in some, constitutes its own production in the "human face divine," as well as in the garden of rich and delicately tinted and variegated flowers A free, active and healthy circulation of the fluids or the coloring of the pure, rich blood to the extremities is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flushes of loveliness that all admire, but none can describe This beauty is the offspring of nature—not of *powder or soap* If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful If she be blown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies, are so much admired Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complex ion, they should use Dr Townsend's Sarsaparilla Thousands who have tried it, everywhere then extolled, are delighted. Ladies of fashion's station crowd our office daily.

NOTICE TO THE LADIES.

Those that take Dr Townsend's Sarsaparilla have invariably called their stuff *a great remedy for females*, &c, &c, and have imputed all pills and circulars which relate to the complaints of women, word for word—other men who put up medicine have, since the great success of Dr. Townsend's Sarsaparilla in combating incident to females, recommended theirs, although previously they did not. A number of these Mixtures, Pills, &c, are injurious to females, as they aggravate disease, and undermine the constitution.

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine— They were afflicted very severely with bad sores have taken only four bottles, it took them away, for which I feel myself under great obligation. Yrs respectfully

ISAAC W CRAIN, 196 Wooster-st.

OPINIONS OF PHYSICIANS

Dr Townsend is almost daily receiving orders from physicians in different parts of the Union.

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market H P FULLING M D,

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts Bitters, Bitters, Extracts of Yellow Dock, &c They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided

TESTIMONY OF ANOTHER PHYSICIAN

The following is an answer in reply to a note from our agent asking Dr. Bouton's opinion of this medicine

Mr A Dunham—Dear Sir—In reply to your note of yesterday, I would state, that I have occasionally found it convenient to use the various Patent Pills" vended in the shops, and while I am unwilling to say any thing disparaging to the use of others, I am free to confess that I consider Dr Wright's Indian Vegetable Pills *superior to all others* with which I am acquainted I have used them for many years, both in my *own family* and in my practice generally, and they have uniformly proved mild, *certain* and safe in their operations The ease and facility with which these Pills have been administered and, in my opinion, a sufficient guarantee for their good results in future

Very respectfully B A BOUTON, M D

GALVANIC BELTS, ELECTRIC NECKLACES, AND MAGNETIC FLUID.

For the Removal and Permanent Cure of all NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medicinal discovery of the Age*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system Also in

FITS, CRAMP, PARALYSIS AND PALSY,

Dyspepsia or Indigestion,

RHEUMATISM, Acute and Chronic, GOUT, EPILEPSY, LUMBAGO, DRAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST,

Liver Complaint,

SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS AND PHYSICAL ENERGY,

and all

Nervous Diseases,

which complaints arise from one simple cause, namely,

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, Drugs and Medicines *increase the disease* for they weaken the vital energies of the already prostrated system, while under the strengthening life giving vitalizing influence of Galvanism as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists, in the fact that they arrest and cure disease by *outward application* in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction

They strengthen the whole system equalize the circulation of the blood promote the secretions and never do the slightest injury under any circumstances

Since their introduction in the United States, only three years since, more than

60,000 Persons

including all ages, classes and conditions among which were a large number of ladies who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain

To illustrate the use of the **GALVANIC BELT,** suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA or any other Chronic or Nervous Disorder In ordinary cases stimulants are taken, which, by their action on the nerves and muscles of the stomach afford temporary relief, but which leave the patient in a lower state and with injured faculties after the action thus excited has ceased Now compare this with the effect resulting from the application of the **GALVANIC BELT** Take a Dyspeptic sufferer even in the worse symptoms of an attack and simply tie the Belt around the body using the Magnetic Fluid as directed In a short period the insensible perspiration will set on the positive element of the Belt thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive thus keeping up a continuous Galvanic circulation throughout the system Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS

"Truth is stranger than Fiction."

The following letter narrating one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey, of distinguished attainments and exalted reputation —

SIDNEY, New Jersey July 12, 1848

DR A H CHRISTIE—Dear Sir I wish to know of me who has been the result in my own case of the application of THE GALVANIC BELT AND NECKLACE My reply is as follows

For about *twenty years* I had been suffering from Dyspepsia. Every year the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment whatever My physicians were skilful and excellent men but here their prescriptions failed About *fourteen* years since in consequence of frequent exposure to the weather in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism which for year after year caused me indescribable anguish In the severer paroxysms, the skill of my physicians sometimes afforded me great relief, but this relief was only temporary Further in the winter of '46 and '46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis which soon became so severe as to require an immediate suspension of my pastoral labors. *My nervous system was now thoroughly prostrated*, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus evincing that these disorders were connected with each other through the medium of the Nervous System My sufferings were indeed severe, and I had no prospect other than being entirely laid aside from the discharge of those duties, and the performance of those labors in which my soul has ever found the highest of her joys.

But reasoning from effect to cause I concluded that the *Nervous System* must be reached, before any hope could be indulged of my obtaining relief from these most distressing maladies In the whole pharmacopœia there seemed to be no remedial agent which could reach and recuperate my Nervous System, every thing that I had tried for this purpose had completely failed At last I was led by my friends to examine your inventions, and (though with no very sanguine hopes of their efficiency) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE with the MAGNETIC FLUID This was in June 1846. To MY GREAT ASTONISHMENT IN TWO DAYS MY DYSPEPSIA HAD GONE, IN EIGHT DAYS I WAS ENABLED TO RESUME MY PASTORAL LABORS, FOR HAVE I SINCE OMITTED A SINGLE SERVICE ON ACCOUNT OF THE BRONCHITIS, AND MY RHEUMATIC AFFECTION ALSO CEASED TO TROUBLE ME. If time permitted, I could fill a sheet of paper with the details of particulars, but I can now only furnish the brief abstract. My Dyspepsia has never returned, the Rheumatism once in a while visits me but not severely and is easily arrested and is manifestly being driven from its hold upon my system, and my Bronchial affection *is entirely cured.* Such is the wonderful and happy result of this experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from neuralgic affections. They have tried them, WITH MANY RESULTS, BELIEVE IN EVERY CASE.

I am, dear sir, very respectfully yours,

ROBERT W LANDIS.

☞Many hundred Certificates from all parts of the country of equally extraordinary character could be given.

☞No trouble or inconvenience attends the use of *DR CHRISTIE'S GALVANIC ARTICLES,* and they may be worn by the most feeble and delicate with perfect ease and safety In many cases the sensation attending their use is *highly pleasant and agreeable.* They can be sent to any part of the country.

Patent Mill Wheels.

Timbey's Patent

Two Vent Cast Iron Water Wheels

—for—

SAW MILLS,

Invented by T R. Timbey of Cato N Y

THE undersigned would invite the attention of the Public to the above named WHEELS which have been thoroughly tested in Canada with all other popular

SAW MILL WHEELS

in use at the present time, and they can confidently recommend them with the same head and quantity of water applied a possessing and combining more *Strength and Speed*, and giving a more *even and Steady Motion* on the cut (and the reform not liable to break cranks) and will also run longer and *Save more Lumber* under a low head than any other Wheel in use

Another advantage which this Wheel has over others is that it is constructed with but two vents for the discharge of water which makes the apertures larger and allows the "draft stuff" to escape without filling up the Wheel

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere

We would also call the attention of Mill Owners and Operators to

Valentine's Patent

Reversing Centrifugal Water Wheel

—FOR—

"UPRIGHT SHAFTS."

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills and are made of different sizes so as to give any amount of power required as to the reputation these Wheels have acquired by the successful operation of several hundred now in actual use, we feel confident in recommending them as combining more advantages than any other Wheel for proper Upright Shafts now used.

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with it since each MARA, BEARD Esq Civil Engineer—Towns Mass who is well known as an Hydraulic Scientific and experienced practical Engineer in this country.

The wheel is formed with curved floats the number depending upon the size of Wheel, each Wheel each extending so far as that the Water that when the water arrives at the point of pressure as far expended that it falls very nearly perpendicular from the Wheel The Wheel is of the best Universal wooden curb or flume (which the water stands at its full head the column being supported by the stationary plate under the Wheel) So that it has the whole head of pressure upon the Wheel which stands perfectly free in the water until used and by this arrangement all the friction caused and bearing of the Wheel is avoided and more the power saved which in the old way is made of operation is wholly lost

This Wheel is adapted to low as well as high heads of water and will run a mill back water as out of it providing the head is as much as 3 feet as the back water But a Wheel will be of eight Boiler iron and Cast Iron Gudgeons which they will make up in any size in want of any of the above Wheels will find it their advantage to call on
